

A GLOBAL SOLUTION TO REDUCE POLLUTION

Investor Presentation
January 2021

Forward Looking Statement

- This presentation is based upon information supplied by the management of dynaCERT Inc. ("dynaCERT" or the "Company") and is being furnished on a strictly confidential basis, solely for use by prospective investors. Each recipient of this presentation agrees that all of the information contained herein is confidential and is not to be used for any purposes whatsoever except to assist the recipient in evaluating the Company. Each recipient agrees to keep the information contained herein in strict confidence and, neither directly nor indirectly, to reproduce or transmit in any form or by any means any of the information contained herein or to disclose such information to any person, firm, or corporation without the prior written consent of the Company. dynaCERT expressly disclaims any and all liability for any representation or warranties, expressed or implied, contained in this presentation or for omissions from it. Only those particular representations and warranties that may be made in a definitive agreement respecting any proposed transaction, if and when executed, shall have legal effect.
- This presentation/document contains forward-looking statements reflecting dynaCERT's current forecast of certain aspects of the Company's future. It is based on current information that has been assessed, but which by its nature is dynamic and subject to rapid and even abrupt changes. Forward-looking statements may include, without limitation, statements regarding growth projections, including financial forecasts and the projected rollout of the Company's products. dynaCERT's actual results could differ materially from those stated or implied by the Company's forward-looking statements due to risks and uncertainties associated with its business, including, but not limited to:
 - The requirement for significant financing to develop and market its technology;
 - The ability to establish and maintain arrangements with industry recognized strategic partners;
 - Market acceptance of the Company's technology and products;
 - Competition in all aspects of its business;
 - The effect of general economic, credit and capital market conditions on its business;
 - The ability to complete product development milestones and progress towards commercialization of product within the contemplated timetable;
 - The ability to attract and keep highly qualified staff and management; and
 - Changes in product profit margins due to pricing changes driven by variations in customer demand, competition, or unforeseen factors.
- The Company's forward-looking statements should be considered in the context of these and other risk factors. All future written and oral forward-looking statements made by the Company on its behalf are also subject to these factors. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Securities laws vary between Canadian provinces and investors should seek independent legal advice regarding compliance with applicable securities laws in connection with any investment in the Company. The securities of the Company are not registered under United States securities laws. This presentation/document is not a prospectus or a public offering in any jurisdiction.

Patented Technology

- Produces measured amounts of hydrogen and oxygen gases from distilled water
- On-demand (no storage, no pressure, intrinsically safe)
- With a low power demand from the engine's battery bank
- Delivered to the air intake of internal combustion engines
- On trucks, mining equipment, generators, reefers, construction equipment
- < particulate matter < black smoke
- < Diesel Exhaust Fluid and < Diesel Particulate Filter
- 5 Families of Patents globally

HydraGEN™ Technology

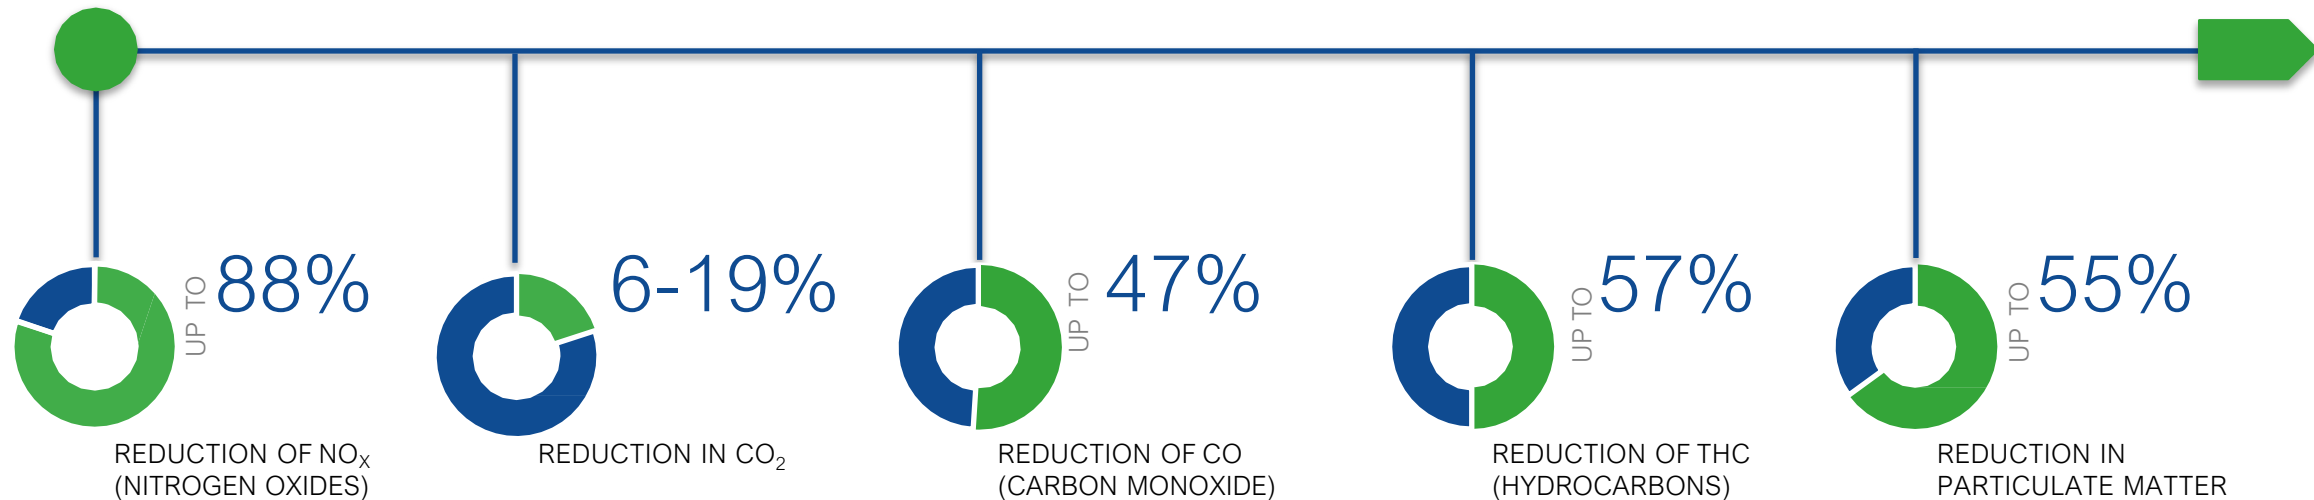

- \$60 million already invested
- 16 years of R&D to commercialization
- Continued & expanded R&D for new models in expanded R&D facilities
- Results in:
 - > More power
 - > Better torque
 - < Less fuel consumption and
 - < Less CO₂, CO, and NOx
- For internal combustion engines

Emission Benefits

HydraGEN™ Lowers Emissions Substantially

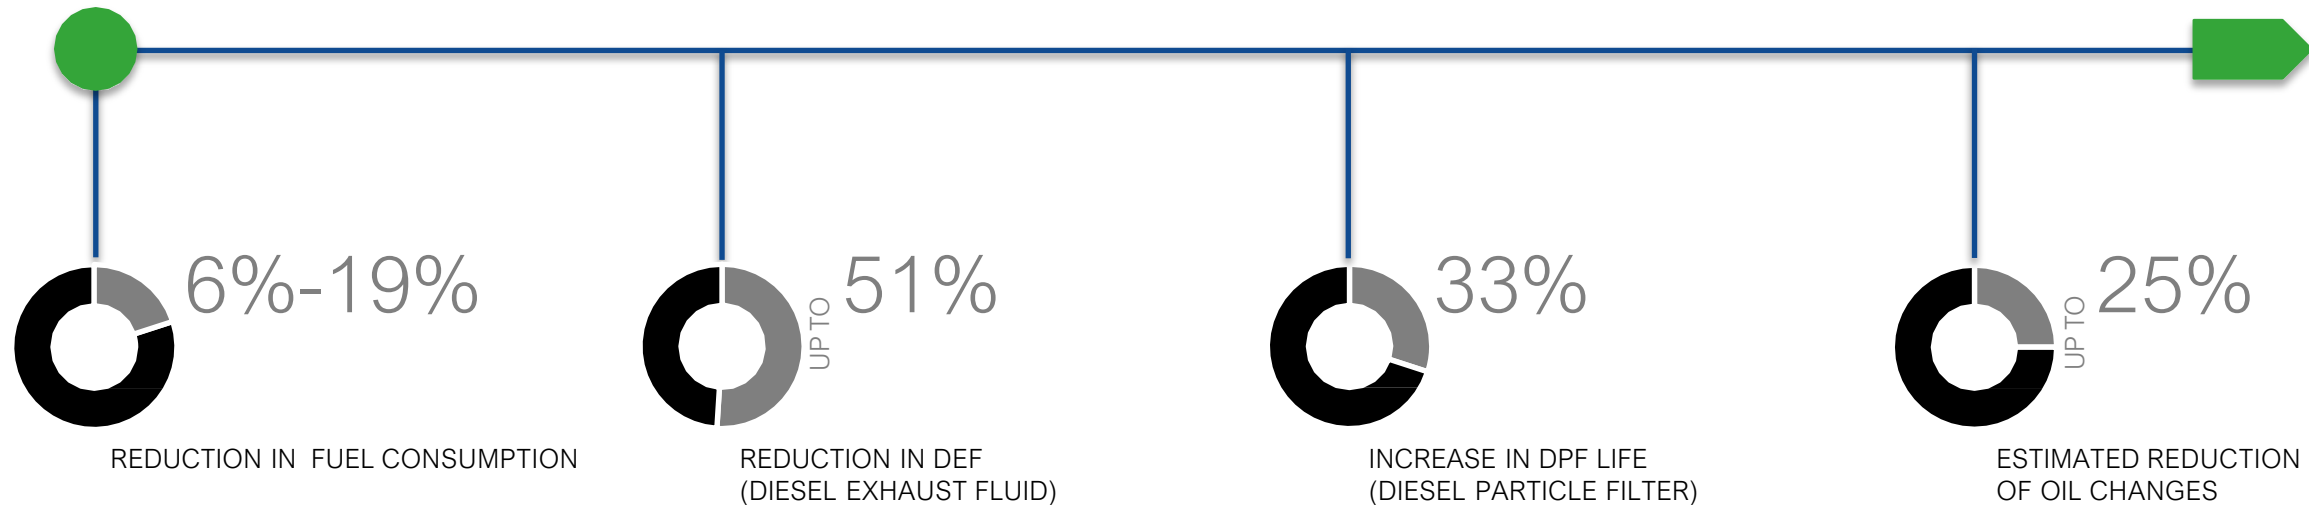

The following results have been acquired from accredited third party verification performed by PIT Group in Montreal, Quebec, Continental EMITEC in Germany and performance testing at the UOIT ACE in Toronto, Ontario.

Economic Benefits

Lower Consumption and Maintenance

The following results have been acquired from accredited third party verification performed by PIT Group in Montreal, Quebec, Continental EMITEC in Germany, and performance testing at the UOIT ACE in Toronto, Ontario.

HydraGEN™

Product Line

HG2 Series

1 to 8 litre engines

HG1 Series

10 to 15 litre engines

HG-C series

40 to 100 litre engines

Class 8 Truck Application

Industries Served

CURRENT MARKETS

- Buses

- Refrigerated Trailers

- Small Trucks

- Class 8 Trucks

- Power Generators

- Farming

- Construction

- Mining Equipment

PLANNED

- Passenger vehicles

- Small Marine Vessels

- Ocean Vessels

- Locomotives

Market Size

- Total ICE Market

- 1 billion internal combustion engines operate world-wide
- 100 million new internal combustion engines built world-wide every year

- HG2 Market Estimate

- 20 million in North America
- 40 million in Europe
- 55 million in South Asia
- 20 million in South America

- Europe

- 145 million trucks

- North America

- 711,000 trucking companies relying on 3.5 million drivers
- 15.5 million class 8 trucks
- 36 million trucks registered for business

- South America & India

- 210 million trucks

Value Proposition to End-User

**Payback model is only based on fuel savings. End-users of HydraGEN™ Technology may also find cost savings from other areas such as reduction of DPF filters used, less DEF usage and less oil changes.*

Independent Validations

- UOIT (University of Ontario Institute of Technology)
- PIT Group in Canada
- Continental EMITEC
- iCAT in India
- Independent testimonials by users, globally
- TÜV NORD & TÜV SUD testing for ABE/KBA European Homologation
- Now: user “audit” with HydraLytica™

For End-User Verification

- With dynaCERT's HydraLytica™ Telematics system, end-users can view in “real time”:
 - Visualize on their computers & phones:
 - Day-to day fuel savings
 - Reductions in Greenhouse Gas Emissions
 - Compare:
 - Fleet performance
 - Driver performance
- Convincing for all end-users
 - such as truck fleets
- Can be audited
- No reliance on prior independent third-party validation
- HydraLytica™ proves to users the value proposition of DYA products

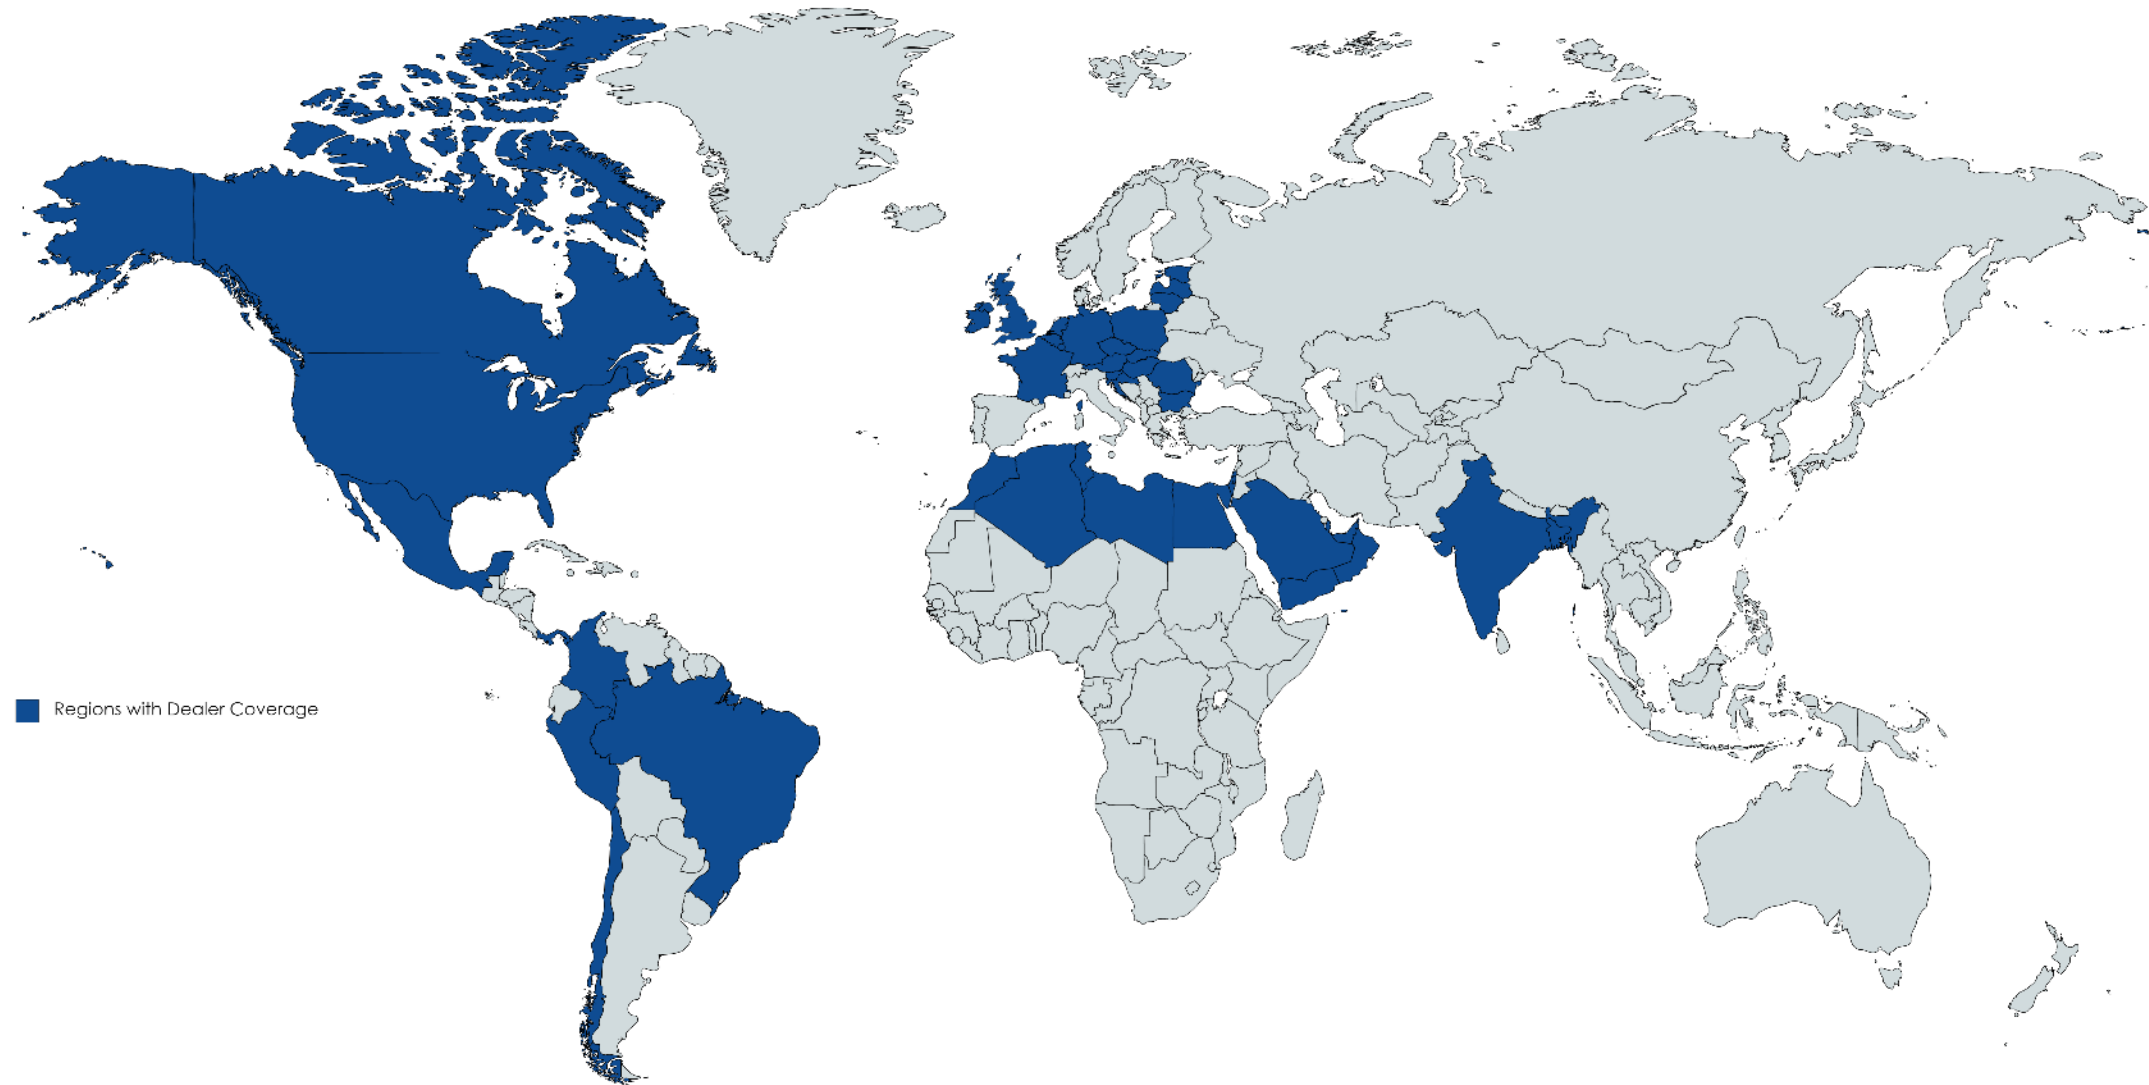

Global Business Model

\$60,000,000 of R&D and other expenditures over 16 years	Major Cap-Ex already expended
DYA sells assembled product	Product assembled by DYA in Toronto eventually Mexico, Germany, India
DYA's cost of production	50% of wholesale price
DYA profit margin	100%
Fast ROI price per unit (wholesale)	USD \$5,000
Low DYA overhead	
Global dealer network	Ensures local sales & service

Dealer Network – January 2021

38 Dealers Globally Who Service 43 Countries:

High Barriers to Entry

- Separation method of H₂ and O₂ is a unique development
- \$60 million and 16 years to develop the HydraGEN™ Technology
- Worldwide patented technology
 - Unique electrolysis reactor
 - Unique processes
 - Unique ECU (Electronic Control Unit)
- Certification in global jurisdictions = significant time advantage
- 45+ Global Dealer Network = marketing strategy across many verticals
- First-to-market advantage

Capital Structure

Common Shares Outstanding (as of December 31, 2020)	380,514,180
Warrants (at CAD 0.35 – CAD 1.00) (as of December 31, 2020)	21,650,258
Options (at CAD 0.10 – CAD 0.94) (as of December 31, 2020)	27,405,806
Market Cap @ recent price of CAD \$0.85	~ \$ 320 Million
Very liquid stock:	Recent average daily volume ~ 2 Million Shares

Strong Shareholders

- Management + Insiders:
~ 25%
- Institutions (approximately 20):
~ 10%
- Family Offices & Dealers:
~ 15%
- Eric Sprott:
~ 10% + Warrants

Comparable Technology = Trailer Skirts

- 90% of long-haul trucks added skirts
 - (9 years after launch)
 - Skirts save 1% fuel and cost \$3,000
- HydraGEN™ Technology:
 - Cost the end-user < \$10,000 &
 - Save over 10% fuel
- 3 x Better Proposition:
 - 10% for \$10,000
 - or 1% for \$1,000

Carbon Credits

Each long-haul truck can generate as much as \$2,000 in Carbon Credits per year

DYA to split benefits 50-50 with truck fleet owners

DYA has submitted an application to VERRA of the USA for Carbon Credit Methodology

Application being led by Environmental-Partners of the UK

DYA owns the HydraLytics™ software & telematics and has retained world experts to establish audit trail of fuel savings & future Carbon Credits

Our telematics developer invented Apple Pay™ and PayPal™

Our HydraGEN™ units are simply the “Razor”

Carbon Credits are the “Razor Blade” recurring revenue model

Recent Developments

- Mr. Eric Sprott invested > \$14,000,000 in DYA in early 2020 for 10% of DYA
- Bought deal financing in July 2020 > \$8 million to approximately 20 institutions
- Toronto Stock Exchange listing in July 2020
- OTCQX Best Markets listing in July 2020
- DISH monthly rental of HydraGEN™ Units to end users
- Semi-Automated Assembly Plant in August 2020 = capacity of 72,000 Units/Year
- Carbon Credit application with VERRA underway
- Addition of Dealers globally (mining, trucking, generators, locomotives, marine)
- Government Relations formalized

Management

Jim Payne
President, CEO &
Director

- CEO of dynaCERT since 2013
- Previously CEO of privately held consulting, project management and real-estate development company
- Successfully built and managed his own private companies for more than 38 years providing experience in accounting, business leadership, and the legal aspects of governance

Wayne Hofmann
Chairman

- Chartered Accountant
- Former business executive with Deere & Company responsible for mergers and acquisitions; Vice President, Finance and President of John Deere Credit
- Treasurer of Christians For Israel, Canada, responsible for Planning and Development

Robert K. Maier
COO, Chief Engineer

Jean-Pierre Colin
Executive Vice
President & Director

Carmelo Marrelli
CFO

Enrico Schlaepfer
VP of Global Sales

Khoa Tran
Director of Finance

David Bridge
Technical Advisor

Board of Directors

Wayne Hofmann
Chairman

Jim Payne
President & CEO

Jean-Pierre Colin
Executive Vice President & Director
former Investment Banker

Robert K. Maier
COO, Chief Engineer, Industrialist

Elliot Strashin
Director, Real Estate Developer &
Environmental Platinum Lead
Innovator, formerly MD

Richard Lu
Director, CEO of International
Solar Panel industry leader

Amir Farahi
Director, Government
Relations Consultant

Investment Highlights

- Proven Carbon Emission Reduction Technology
- Proprietary know-how & Patents = Leader in Canadian Hydrogen Technology
- Carbon Credits can be measured and monetized
- High Barriers to Entry
- Strong Balance Sheet with approximately \$20 million & Very Liquid Stock
- Near-term growth potential
 - Global Strategy: Canada, USA, South America, Europe, South Asia, Middle East
 - Diversified vertical market segments: trucks, reefer trailers, buses, heavy construction, mining equipment, electrical power generators, marine & locomotive
- Compelling Value Proposition to end-users of products = under 1 year payback
- Strong Margins = Attractive Business Model
